02/11/2015

01. User Story: As a user I want application's user guideline to know about how to use and navigate the application.

Acceptance Criteria:

1. Use a Guideline Button in 'on' option menu in the application to go to user guide line activity. Make sure the appropriate guideline is displayed for a regular user.
2. Try to follow the guideline's instruction and go through the application. Make sure the followed instructions are correct.

02. User Story: As a user I want to create new event by adding course/exam name, Number of credits, required reference materials and expected result to get a study plan of how to organize for the course or exam.

Acceptance Criteria:

1. Use a course name=MSSE640, Number of credits=3, Required reference materials= 8 weeks presentation slides. Make sure the MSSE640 event is created.
2. Try to create event with empty course name. Make sure you can't get in.
3. Try to create event with empty number of credit. Make sure you can't get in.

03. User Story: As a user I want to add assignments by adding assignment name into existing course or exam event to get study plan.

Acceptance Criteria:

1. Use an Assignment name = Test Plan. Make sure the assignment activity is created under MSSE640.
2. Try to create assignment activity with empty assignment name. Make sure you can't get in.

04. User Story: As a user I want to set the start date and due date for existing course or exam to get a work's progress bar for MSSE640.

Acceptance Criteria:

1. Use a start date = 02/10/2017, due date = 03/13/2017. Make sure the appropriate progressing bar is displayed.
2. Use a start date = 01/12/2016, due date = 03/14/2016. Make sure you can't select past date as a due date.
3. Try to add start date = 02/10/2017, empty due date. Make sure you can't get in.
4. Try to add due date = 03/14/2017, empty start date. Make sure you can't get in.

05. User Story: As a user I want to set the start date and due date for existing Assignment to get a work's progress bar for assignment.

Acceptance Criteria:

1. Use a start date = 02/09/2017, due date = 04/13/2017. Make sure the appropriate progressing bar is displayed.
2. Use a start date = 08/12/2016, due date = 11/14/2016. Make sure you can't select past date as a due date.
3. Try to add start date = 02/09/2017, empty due date. Make sure you can't get in.
4. Try to add due date = 04/14/2017, empty start date. Make sure you can't get in.

06. User Story: As a user I want to change and update course or exam start date and due dates to change study plan

Acceptance Criteria:

1. Change a start date = 03/10/2017, due date = 05/13/2017. Make sure the appropriate progressing bar and study plan are updated.

2. Change a start date = 01/12/2016, due date = 03/14/2016. Make sure you can't select past date as a due date.
3. Try to update start date = 02/10/2017, empty due date. Make sure you can't get in.
4. Try to update due date = 03/14/2017, empty start date. Make sure you can't get in.

07. User Story: As a user I want to change and update assignment's start date and due dates to change study plan

Acceptance Criteria:

1. Change a start date = 04/10/2017, due date = 05/23/2017. Make sure the appropriate progressing bar is updated.
2. Change a start date = 02/19/2016, due date = 04/18/2016. Make sure you can't select past date as a due date.
3. Try to update start date = 02/08/2017, empty due date. Make sure you can't get in.
4. Try to update due date = 06/14/2017, empty start date. Make sure you can't get in.

08. User Story: As a user I want to set the specific time or percentage of work to get a reminder as a notification when meet above requirements.

Acceptance Criteria:

1. Use a date= 02/10/2017 time= few minutes ahead. Make sure notification is displayed when the system meets the time.
2. Use a past date= 01/10/2017. Make sure you can't get it.
3. Try to remove notification. Make sure reset the notification system and there is no notification.

09. User Story: As a user I want to delete single event to remove the event from my list.

Acceptance Criteria:

1. Select event=MSSE640. Go delete the event. Make sure it is no longer in the list.
2. Try to delete event without selecting. Make sure you can't do it.

10. User Story: As a user I want to delete all events from main view to empty my list.

Acceptance Criteria:

1. Go to all delete. Make sure there is no longer list.
2. Go to all delete with empty list. Make sure the message dialog box displays “course/exam list has already empty.”
